

- First, go to the github website:

https://github.com/gblyth/NEISS_GUI

and click the "Clone or download" button on the right side of the webpage, and select "Download ZIP"

- Go to your downloads folder and open/unzip the downloaded "NEISS_GUI-master.zip" file.

- Open a new terminal or command line window and traverse to the extracted "NEISS_GUI-master folder/directory.

```
C:\Users\gth192>cd Downloads
C:\Users\gth192\Downloads>cd NEISS_GUI-master
C:\Users\gth192\Downloads\NEISS_GUI-master>cd NEISS_GUI-master
C:\Users\gth192\Downloads\NEISS_GUI-master\NEISS_GUI-master>python NEISS_Database_GUI.py
```

- an example of moving to this folder in a Mac OS terminal is:

```
$ cd ~
```

```
$ cd Downloads/
```

```
$ cd NEISS_GUI-master/
```

```
~:NEISS_GUI-master Gavin$ cd ~ ]
~:~ Gavin$ cd Downloads/ ]
Downloads Gavin$ cd NEISS_GUI-master/ ]
~:NEISS_GUI-master Gavin$ python NEISS_Database_GUI.py █ ]
```

- Then start the python code with:

```
$ python NEISS_Database_GUI.py
```
